On the USAGE screens, change the toggle switch to **COST**

Cost reflects usage related charges only, and will not include additional fees such as taxes and deposits.
There may be variances in the calculated cost due to rounding.

Cost		Weather	
Meter:	[Redacted]	Average Temperature:	79° F
High Cost:	\$5.93	High Temperature:	87° F
Low Cost:	\$1.53	Low Temperature:	65° F
Average Cost:	\$3.37		
Total Cost:	\$107.98		

The bottom of the screen reflects **COST** values also. The **“Total Cost”** sums the totals for the columns in view.

Now when you hover over a period, the Dollar Amount will show for usage charges for the selected period.
