Purchased Power Cost Adjustment Clause

The purchased power cost adjustment applies to all billings under this rate schedule. This clause is described in Choptank's PCA Policy.

Universal Service Charge

The Universal Service charge applies to all billings under this rate schedule. This charge is described on Tariff Page No. 80.

MARYLAND ENVIRONMENTAL SURCHARGE

Maryland Environmental Surcharge

A charge each month shall be applied to all kWh sales at the current rate set by the Maryland Public Service Commission.

Determination of Distribution, Generation, and Transmission Billing Demand: (Non-Coincident Peak)

\* \_\_\_\_\_ The distribution, ~~generation, and transmission~~ billing demand shall be the maximum kilowatt demand established by the consumer for any period of fifteen consecutive minutes during the month for which the bill is rendered, as indicated, or recorded by a demand meter. -This ~~demand is billed every billing month May-October. If, during the billing months November-April, the energy charge shall only apply when actual consumption exceeds 499 kilowatt hours, the non-coincident demand will apply 500kWh, which is measured prior to the application of any energy generated by the member.~~

SOS Billing Demand

The transmission and generation (SOS) demand shall be the maximum kilowatt demand established by the consumer for any period of fifteen consecutive minutes during the month for which the bill is rendered, as indicated, or recorded by a demand meter. These charges shall only apply when actual consumption exceeds 500kWh, which is measured prior to the application of any energy generated by the member.

Standard Offer Service (SOS) Charges

The Transmission and Energy Supply Charges apply only to customers receiving SOS from the Cooperative. These charges do not apply to customers obtaining Competitive Power Supply.

Compensating for Transmission and Distribution Losses

Multiplying ~~Customers'~~customers' metered energy by the appropriate system loss factors found on Tariff Page No. 81 produces the generation and transmission energy that must be delivered to the ~~Cooperative~~Cooperative's System.
