

**Choptank Electric
Cooperative**

LOAD CONTROL RIDER PROGRAM

Cooperative members can receive credit for controlling their electric usage during certain peak periods through our voluntary Load Control Rider program. Members billed under the General Service – Irrigation (FI) rate or a rate that includes a demand component (outlined below) can enroll in this free program.

Members will receive a payout of \$8.50/kW curtailed during every PJM 5-High peak and \$16/kW curtailed during the Transmission peak. Notice of peak periods will be issued by Choptank Electric via text message (members may opt in through SmartHub).

There is **NO PENALTY** for not curtailing your use during the designated peak periods, but a big benefit if you can!

Load Control Rider (LC)

- Can be paired with rates that include a demand component: Small Power (S), Medium Power (M), and Primary (P) rates
- Must have a curtailable load of at least 50kW

Load Control Rider - Irrigation (LC-FI)

- Can be paired only with General Service - Irrigation (FI) rate
- Must have a curtailable load of at least 25kW

If you would like to enroll in the Load Control Rider program, give us a call at 1-877-892-0001.
